

# SCHOOL SANITATION

SINCE 1986

**amalooloo**<sup>®</sup>  
BUILDING HEALTHY NATIONS

1

Market leaders in on site school sanitation.

2

Exceptional child safety features.

3

Extreme health and hygiene benefits.

4

Providing our children with dignity and safety.

# COMPANY OVERVIEW

---

Founded in 1986, Betram (Pty) Ltd has an impeccable record in the design and development of holistic, sustainable and ecologically friendly sanitation solutions.

Our Holistic, Sustainable and Ecologically Friendly Sanitation Solution with extensive Health and Hygiene benefits has resulted in the improvement of dignity and quality of life that our people fully deserve.

Betram has developed and patented a unique sanitation system for both Waterborne and Dry (Ventilated Improved Pit) Structures – the Amalooloo.

We are industry experts and continue to invest substantially in research and development to ensure that we remain at the cutting edge of advanced sanitation technology.

We believe that our Amalooloo System is at the forefront of solving sanitation problems in schools, urban, peri-urban and rural areas. It is an affordable, superior product without compromising on quality or style and includes the safe management, collection, storage, treatment and disposal of human excreta.

Our unique and Dignified Separating Technology (UDS) at source is one of the key components in the completion of the 'Sanitation Loop'.

**Improvement of dignity and quality of life that our people fully deserve.**

# FREQUENTLY ASKED QUESTIONS

**HOW MANY TOILETS DO YOU PROVIDE PER SCHOOL ?**

We work on a ratio of one toilet for every 20 learners. Toilets for faculty members will be calculated according to the number of staff. We also provide two additional toilets for after school activities.

**DO YOU PROVIDE HAND WASH FACILITIES FOR THE CHILDREN?**

Yes our hand wash facility is located inside the toilet for health and hygiene purposes.

**WHAT SAFETY FEATURES DO YOU PROVIDE FOR THE CHILDREN?**

A child safety seat that is specially designed for the children. We also provide a stepping block for the small children. We also separate the toilets from the boys and the girls, for privacy and safety.

**HOW LONG DOES IT TAKE TO CONSTRUCT ONE SCHOOL WITH TOILETS?**

Between 5-10 working days.

**DO YOU DELIVER NATIONALLY AND INTERNATIONALLY?**

Yes
